Samar Qaiser

Software Engineering Student

A second-year BSc Software Engineering student at the Military College of Signals, NUST with strong academic achievement and leadership experience. A highly motivated student with proven leadership, communication, and responsibility track record.

I am willing to get an internship related to my field.

Experience

○ Oct 2023-Nov 2023

CodSoft | Online

Web Development

This internship program offers hands-on learning, where students work on real projects under the guidance of experienced mentors. Their team consists of industry experts who are dedicated to equipping interns with the knowledge and skills needed to succeed in their careers. They foster an inclusive and supportive environment that encourages learning, growth, and creativity. I got the opportunity on various real-life projects and learned a new set of skills. It was overall a great experience for me. I appreciate them for providing me with this opportunity.

○ Oct 2023-Nov 2023

interns.pk | Online

Front-end Web Development

This program focused on client-side development, which is also referred to as front-end development. It involves creating HTML, CSS, and JavaScript for websites or web applications that users can directly see and interact with.

○ Oct 2022
